

# Texas Junior College Agriculture Association

## Quiz Contest Rules

The goal of these contests is to promote and encourage Agriculture students to strive for academic excellence through the course of their studies. Through friendly competition, students will be afforded the opportunity to evaluate themselves and achieve the satisfaction of competing. It should be noted that the intent of these contests is to allow a means to reward those students who are successful in the normal course of studies and not as a means to increase competition.

Quizzes will be written, administered, and graded by the host university. The quizzes will consist of true/false and multiple choice type questions and/or problems.

Six quiz contests, covering the following subject areas, will be available for students to participate.

Agricultural Economics	Wildlife
Agronomy	Agricultural Mechanics
Animal Science	Horticulture

Students may participate in as many of the quiz contests as they wish, provided they meet the eligibility requirements set forth in the general rules and regulations of the contests.
